

NATURAL SCIENCE (NAT)

NAT 101H. Biology: The Science of Life. (3 Credits)

This biological science course emphasizes man's relationship with the natural world by studying concepts and ecology, inheritance, evolution, and the functioning of living systems. The student must enroll in the one designated lab section as well.

NAT 363. Ecology and Human Affairs. (3 Credits)

A biological science course that develops the basic principles of ecology, and uses them as a basis for consideration of agriculture, land use, endangered species, and other environmental issues.
