

DEPARTMENT OF ENVIRONMENTAL & PUBLIC HEALTH, ADMINISTRATION, AND MEDICAL SCIENCES

Dr. Ismail El-Amouri, Chair

Dr. Heather Tudor, Associate Chair

Dr. Phyllis Bryden, MPH Director

Dr. Jonathon Vorbeck, HP Graduate Coordinator/Advisor

Dr. Gary Brown, EOHS Graduate Coordinator/Advisor

www.mph.eku.edu (<http://www.mph.eku.edu/>)
(859) 622-8316

The Department of Environmental & Public Health, Administration, and Medical Sciences offers a Master of Public Health (MPH) Degree in one of two concentrations:

- Health Promotion* - 100% online (<https://ekuonline.eku.edu/mph-health-promotion/>) (<https://ekuonline.eku.edu/mph-health-promotion/>) (Starting Fall 2023)
- Environmental/Occupational Health & Sustainability (EOHS) (Hybrid)

The MPH program is tailored to meet the needs of individuals working in or planning to work in a public health profession. Classes are offered on evenings, Saturdays, and online.* A total of 42 semester hours are required to complete the program with 21 hours of MPH core requirements and 15 hours in the chosen concentration. Additional hours are completed in an Applied Practice Experience and Integrative Learning Experience. Full-time students can expect to complete the degree requirements in 2 to 3 years, depending on summer attendance.

*Health Promotion concentration classes are 100% online

VISION:

We envision a healthy commonwealth and global community led by competent and committed public health practitioners.

MISSION:

The mission of the public health program is to prepare culturally competent, skilled public health practitioners that are engaged in community-focused service and public health scholarship, for the commonwealth and beyond.

PROGRAM GOALS:

- **Student Success:** Students will demonstrate professional competencies needed to effectively serve as public health practitioners.
- **Instruction Goal:** The program prepares competent public health professionals through high-impact pedagogy.
- **Community-focused Service Goal:** The program faculty and students will advance the health of the commonwealth through engagement in community and professional service.

- **Scholarship Goal:** The program faculty and students will engage in research and scholarship to grow the public health profession.

VALUES:

- *intellectual vitality*, which is characterized by knowledge, scholarly inquiry, creativity, critical thinking, and curiosity, all with a global perspective;
- *sense of community*, which is characterized by a supportive environment with strong relationships and a commitment to service, shared governance, collaboration, and unity of purpose;
- *cultural competency*, which is characterized by equitable opportunities and treatment, mutual respect, and the inclusion and celebration of diverse peoples and ideas;
- *stewardship of place*, by which the program enhances the intellectual capacity, economic vitality, environmental sustainability, and quality of life of the communities it serves;
- *accountability*, which is characterized by fiscal responsibility, operational transparency, and responsiveness to the needs of internal and external stakeholders; and
- *excellence*, which is achieved through integrity, continuous quality improvement, and a focused emphasis on the personal and professional growth of students, faculty, and staff.

Master's

- Master of Public Health with a Concentration in Environmental/Occupational Health & Sustainability (M.P.H.) (<http://catalogs.eku.edu/graduate/health-sciences/environmental-public-health-administration-medical-sciences/mph-concentration-environmental-occupational-health-sustainability/>)
- Master of Public Health with a Concentration in Health Promotion (M.P.H.) (<http://catalogs.eku.edu/graduate/health-sciences/environmental-public-health-administration-medical-sciences/mph-concentration-health-promotion/>)

Certificates

- Industrial Hygiene, University Certificate (<http://catalogs.eku.edu/graduate/health-sciences/environmental-public-health-administration-medical-sciences/industrial-hygiene-graduate-certificate/>)

EHS 710. Radiological Health & Safety. (3 Credits)

A. Provides the student with the principles of health effects from ionizing radiation, including radiation sources, detection, measurement, control, and safety devices. Student will be able to identify, evaluate and control radiation in the work environment; implement a radiation monitoring program; establish emergency plans for actions to be taken in event of radiological accident; develop risk assessment and communication program. Credit will not be awarded to students who have received credit for EHS 510.
