

CONSTRUCTION MANAGEMENT, DEPARTMENTAL CERTIFICATE

The Certificate in Construction Management is designed to introduce individuals to graduate work in the construction management field. Requirements include a bachelor's degree from a college or university of recognized standing in Construction Management or Civil Engineering, or another discipline with three years verifiable construction management experience.

Individuals who intend to complete the Certificate in Construction Management must meet Graduate School requirements for admission as a non-degree-seeking student. Students pursuing the Certificate in Construction Management must earn a "B" or better in all courses comprising the Certificate.
