

APPLIED MATHEMATICS, MASTER OF ARTS WITH A CONCENTRATION IN DATA SCIENCE (M.A.)

Program Objectives

The objectives of the graduate mathematics program are the following:

1. To provide a graduate program in mathematics and statistics leading to a degree which prepares students for careers in government or industry.
2. To provide a graduate program in mathematics designed for certified high school teachers who wish to broaden their knowledge of the mathematics related to the field in which they teach.
3. To provide the necessary mathematical content for certified teachers to teach dual-credit courses at the secondary level or courses at a community college, two-year college, or four-year college.
4. To include in this program courses in the areas of mathematics, statistics, statistical analysis, mathematics applications, and courses demonstrating the relationships among these fields.
5. To guide students in tailoring a program of study ideally suited to their background, aptitude, and career interests.

Admission Requirements

Clear admission to graduate standing will be granted to those students who have the following:

1. Scores of 144 or higher on the Verbal Reasoning portion and 147 or higher on the Quantitative Reasoning portion of the Graduate Record Exam. Applicants with cumulative undergraduate GPA's of 3.0 or higher are exempt from the GRE requirement.
2. An undergraduate grade point average of 2.5 or higher.
3. Prerequisites for the core courses. (For example, six hours of calculus and courses in linear algebra and statistics would be sufficient.) Applicants who do not have this preparation may be granted admission without the prerequisites but are required to take the courses needed to strengthen their backgrounds. Students seeking a change in Kentucky Teacher rank must have initial certification in secondary mathematics.

Program Requirements

CIP Code: 27.0503

Applied Mathematics Program

Each student must apply 15 or more hours from 800-level courses toward the M.A. degree.

Code	Title	Hours
Core Courses		
MAT 720 or STA 720	Mathematical Statistics I	3
MAT 865	Applied Linear Algebra	3
MAT 866	Combinatorial Optimization	3
MAE 704	Tech for Teaching & Research	3

or STA 775 Statistics Methods Using SAS

No course may be counted under both core requirements and concentration requirements.

Concentrations

Students must select one of the following Concentrations:

Secondary Mathematics

Applied Mathematics and Statistics

Data Science 15

Exit Requirements

MAT 898 Applied Mathematics Capstone 3

Total Hours 30

Concentration

Code	Title	Hours
------	-------	-------

Concentration Courses

DSC 780	R and Introductory Data Mining	3
---------	--------------------------------	---

or STA 780 R and Introductory Data Mining

Choose six hours from the following:

CSC 746 Artificial Intelligence

CSC 781 Machine Learning

CSC 782 Big Data

CSC 783 Data Visualization

Electives

Choose from six hours of advisor-approved electives selected from 700- or 800-level courses with DSC, MAE, MAT, STA, or CSC prefixes 6

Capstone

MAT 898	Applied Mathematics Capstone	3
---------	------------------------------	---

Total Hours 12

Exit Requirements

Capstone

Students are required to complete 3 hours of MAT 898 Applied Mathematics Capstone.
