

# APPLIED MATHEMATICS, MASTER OF ARTS WITH A CONCENTRATION IN SECONDARY MATHEMATICS (M.A.)

## Program Objectives

The objectives of the graduate mathematics program are the following:

1. To provide a graduate program in mathematics and statistics leading to a degree which prepares students for careers in government or industry.
2. To provide a graduate program in mathematics designed for certified high school teachers who wish to broaden their knowledge of the mathematics related to the field in which they teach.
3. To provide the necessary mathematical content for certified teachers to teach dual-credit courses at the secondary level or courses at a community college, two-year college, or four-year college.
4. To include in this program courses in the areas of mathematics, statistics, statistical analysis, mathematics applications, and courses demonstrating the relationships among these fields.
5. To guide students in tailoring a program of study ideally suited to their background, aptitude, and career interests.

## Admission Requirements

Clear admission to graduate standing will be granted to those students who have the following:

1. Scores of 144 or higher on the Verbal Reasoning portion and 147 or higher on the Quantitative Reasoning portion of the Graduate Record Exam. Applicants with cumulative undergraduate GPA's of 3.0 or higher are exempt from the GRE requirement.
2. An undergraduate grade point average of 2.5 or higher.
3. Prerequisites for the core courses. (For example, six hours of calculus and courses in linear algebra and statistics would be sufficient.) Applicants who do not have this preparation may be granted admission without the prerequisites but are required to take the courses needed to strengthen their backgrounds. Students seeking a change in Kentucky Teacher rank must have initial certification in secondary mathematics.

## Program Requirements

CIP Code: 27.0503

### Applied Mathematics Program

Each student must apply 15 or more hours from 800-level courses toward the M.A. degree.

Code	Title	Hours
<b>Core Courses</b>		
MAT 720 or STA 720	Mathematical Statistics I	3
MAT 865	Applied Linear Algebra	3

MAT 866	Combinatorial Optimization	3
MAE 704 or STA 775	Tech for Teaching & Research Statistics Methods Using SAS	3

No course may be counted under both core requirements and concentration requirements.

### Concentrations

Students must select one of the following Concentrations:

Secondary Mathematics	15
Applied Mathematics and Statistics	
Data Science	

### Exit Requirements

MAT 898	Applied Mathematics Capstone	3
---------	------------------------------	---

**Total Hours** **30**

### Concentration

Code	Title	Hours
------	-------	-------

#### Concentration Courses

MAT 735	Principles of Geometry	3
---------	------------------------	---

Choose from six hours of the following: 6

MAE 750	Teach Math in Sec School	
MAE 843	Mathematics Intervention Strat	
MAE 850	Trends in Teaching Sec Math	
MAE 870	HLM in Educational Research	
MAE 872	Mathematics in the Curriculum	
STA 800	Applied Statistical Inference	

### Electives

Choose from six hours of advisor-approved electives selected from 700- or 800-level courses with DSC, MAE, MAT, STA, or CSC prefixes 6

**Total Hours** **15**

## Exit Requirements

### Capstone

Students are required to complete 3 hours of MAT 898 Applied Mathematics Capstone.
