

ACCOUNTING, BACHELOR OF BUSINESS ADMINISTRATION WITH A CONCENTRATION IN MANAGEMENT ACCOUNTING (B.B.A.)

Accounting is one of the key functions for almost any business. Accounting is the systematic and comprehensive recording of financial transactions pertaining to a business. Accounting also refers to the process of summarizing, analyzing, and reporting these transactions to oversight agencies, regulators, and tax collection entities. The reports generated by various streams of accounting, such as cost accounting and management accounting, are invaluable in helping management make informed business decisions.

Management Accounting Concentration

Management Accountants apply their professional knowledge and skill in the preparation and presentation of financial and other decision-oriented information in such a way as to assist managers in formulation of policies and planning and control of the organization's operations. In our Management Accounting Concentration, students learn the skills to specialize in areas such as Information Management, Treasury, Efficiency Auditing, Marketing, Valuation, Pricing, and Logistics.
