

FINANCIAL LITERACY, UNIVERSITY CERTIFICATE

The Certificate in Financial Literacy is offered for all undergraduate students who need to increase their ability to make sound financial decisions. The Certificate is designed to teach personal finance, financial planning, and risk management under different economic forces. There is particular emphasis in how the planning process can change how an individual addresses different predicaments, particularly under risk.

Furthermore, students will be involved in the financial planning process with hands-on projects and gain valuable experience that will prepare them to address the needs of individuals and small businesses. Students must earn at least 6 of the 12 hours required for the certificate in residence at EKU and earn a "C" or better in all courses comprising the certificate.
