

# FINANCIAL TECHNOLOGY AND CYBERCRIME, UNIVERSITY CERTIFICATE

---

This certificate is offered to all undergraduate students and returning industry professionals seeking a deeper understanding of cybersecurity management in the banking and financial services industry. This certificate is designed to provide an understanding of the foundational concepts of financial mathematics and financial technology, accounting fundamentals, information systems and analytics, cybercrime, and cybersecurity in the financial services industry. Students pursuing the Certificate in Financial Systems Security must earn a "C" or better in all courses comprising the certificate. The certificate consists of the following courses with a minimum of 50 percent taken in residence at EKU.
