

# GLOBAL SUPPLY CHAIN MANAGEMENT, UNIVERSITY CERTIFICATE

---

The Certificate in Global Supply Chain Management is offered for all undergraduate students who need to increase their quantitative and analytical skills in context of problems that firms face in the core supply chain areas of Planning, Sourcing, Making, and Delivering. The growth in globalization has led to firms competing on multiple aspects - multi-focused planning, competitive sourcing of inputs, streamlined manufacturing, and efficient delivery to customers. As such there is tremendous need for strong supply chain management skills. The Certificate is designed to provide training in the key areas above.

Furthermore, students will be involved in quantitative analysis of comparing various scenarios and understanding multiple elements of total supply chain cost. Students will be prepared to address the needs of businesses and organizations across all industries, both domestically and internationally. Students must earn at least 6 of the 12 hours required for the certificate in residence at ECU and earn a "C" or better in all courses comprising the certificate.
